

Dawid Olko

Full-Stack Developer

dawid_olko@outlook.com dawidolko.pl linkedin.com/in/dawidolko github.com/dawidolko Rzeszów, Poland · remote or hybrid

PROFILE

I take web applications from the first commit to production: Laravel and Django on the back end, React, Vue and Next.js on the front, shipped with Docker and GitHub Actions onto my own nginx server. I care about the part people actually see — WCAG 2.2 AA accessibility, load time and copy that reads like a person wrote it. I am writing a master's thesis comparing open-source LLMs with classical recommendation methods.

EXPERIENCE

- Front-End Developer

03.2025 — present

Ideo Software sp. z o.o. · student placement

Building and testing web applications with a development team; responsive interface work focused on performance and cross-browser behaviour.
- PHP / Laravel Developer

01.2025 — 02.2025

Ideo Software sp. z o.o. · student placement

Implementing and testing server-side features in Laravel applications; working on existing production systems.
- Digital Marketing Specialist

03.2021 — 04.2021

HSW “Huta Stalowa Wola” · internship

Reviewing and updating the company website's content, supporting sales activity run through the site.
- Product Design Coordinator

07.2019 — 08.2019

PGE Polska Grupa Energetyczna · internship

Working alongside the development team on web projects — web design, content management and SEO.

- EDUCATION

MSc Computer Science
University of Rzeszów
2026 — present

BEng Computer Science
University of Rzeszów
2022 — 2026

Electrical Technician
Technical secondary school
2018 — 2022
- LANGUAGES

Polish
native

English
B1 — technical documentation, written correspondence

SELECTED PROJECTS

- SmartRecommender

Django · React · PostgreSQL

Product recommendation platform with **nine methods written from scratch**, plus an LLM layer (prompting, embeddings, RAG) and a benchmark harness behind my master's thesis.
- NeoBank

Nuxt · TypeScript · Prisma

Banking platform on a real double-entry ledger: multi-currency accounts, transfers, an audit trail and eight ledger invariants reconciled straight from SQL.
- MP Industries

Laravel · Blade · Tailwind

Production site for a CNC machining company — machine catalogue, admin panel and CMS. Deployed with Docker and GitHub Actions, including cleaning up a server security incident.
- Ideo Recruit

Laravel 12 · MySQL · Redis

Recruitment application with a block-based CMS: bilingual content edited side by side, user roles, page revision history and a candidate comparison tool.

I consent to the processing of the personal data contained in this document for the purposes of the recruitment process, in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 (GDPR).
